Program Objectives:

- To store surface runoff for landowner requirements, reduce soil erosion, recharge groundwater supplies and provide wildlife habitat through water storage

Eligibility:

- The registered landowner must make out all applications
- Project must be in the SRWD
- Landowners can only receive assistance from the SRWD for one small water storage program

Cost Sharing:

- The SRWD will pay 100% of the total construction cost (i.e. construction contactor, materials and supplies). The SRWD will cover 100% of the fencing the dam, spillway and reservoir. The SRWD will cover 100% of any repairs during the maintenance period (3 calendar years from date of completion of the dam) providing management by the landowner hasn't resulted in negative impacts to the dam

TERMS AND CONDITIONS

General Terms & Conditions:

- The annual projects resulting from this program will be subject to funds appropriate
- The general time frame for project completion is approximately 2 years
- All appropriate licenses must be obtained prior to construction proceeding
- Landowners that have received assistance from this program since April 1, 2002 will be ineligible for any new projects from this program
- Subject to the terms outlined, the Agreement shall become effective and shall be binding upon both parties until terminated, if either party fails to meet the responsibilities outlined, the Agreement may be terminated by the party via written notice
- SRWD staff will not supervise any repairs on dams following the expiration of the warranty period
- The SRWD will not conduct repairs on any dams built by another agency or individual landowner
- If the land changes hands, the agreement is void

Landowner Responsibility:

- Complete and sign proper application in full before deadline
- Provide consent of entry onto property for inspection and construction and during the 3 year warranty period
- Not alter, change, remove or modify the project without written consent of the District for a period of 10 years
- Allow SRWD staff or contractors to permanently fence the dike and spillway from stock and grazing and that a 10- meter buffer be established around the newly created reservoir to restrict livestock access to single point watering area
- Be responsible for reasonable maintenance of the project following the completion of the warranty period
- Indemnify and save harmless the SRWD, their agents, engineers, servants and/or employees from any and all actions, claims, suits, damages, injuries, or other loss no matter howsoever arising as a result of the construction, operation or maintenance of the project
- Failure to comply to any of the said terms and conditions may negate the landowner's eligibility to participate in further SRWD programs.

Watershed District Responsibility:

- Reserve the right to reasonable access to the project area for surveying, planning, and construction, maintenance during warranty period, tours or to inspect the condition of the project
- Survey the site and design the dam
- Apply for and pay for a license in the landowner's name, to guarantee the right to continued use of water at the site, and obtain any other necessary approvals for the project from appropriate agencies
- Fence the dike and spillway from stock and grazing and that a 10 metre buffer be established around the newly created reservoir to restrict livestock access to single point watering area
- Arrange for the necessary equipment to construct the dam and supervise the project to ensure project design is met and the project is built to standards
- Provide 3 years of warranty on the constructed component of the dam with maintenance charges to be paid for, 100% by the SRWD

I hereby declare that I have read and understand the terms and conditions of the Water Storage Program.

I do hereby agree to abide by said terms and conditions of the agreement as outlined above.
